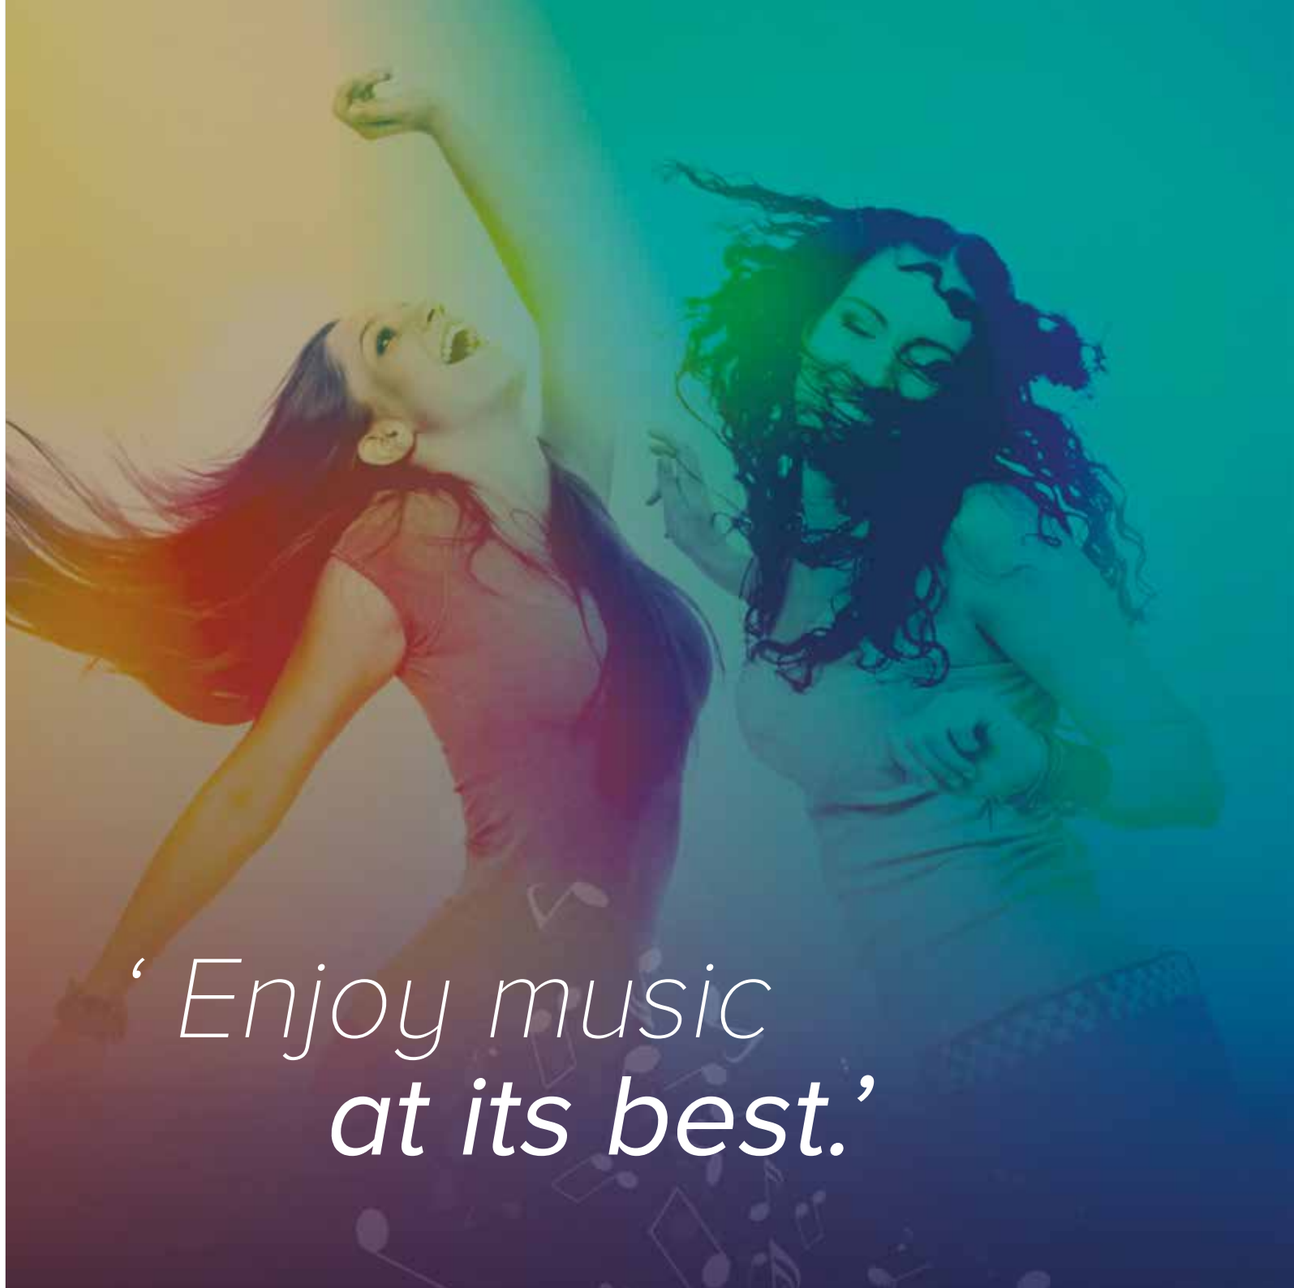
PURE

RANGE BROCHURE

PURE



‘One simple goal is at the heart of everything we do at Pure. ***We want everyone to enjoy music at its best.’***

In practice, this means...

- We pioneer technologies that deliver the finest listening experiences to the widest audience.
- Every product is designed, engineered and fine-tuned meticulously by our audio engineers in the UK.
- We don’t just test our products rigorously in labs, our global teams take them home and live with them.
- A product only makes it out of our doors if it makes the grade in the lab – and in life.

And what does all that mean to you?

It’s simple... A happy customer. Every time.

‘We build to last and all our products come ***with a three-year warranty.’***

Streaming Products

Our streaming products clearly demonstrate our quality ethos, winning multiple awards and fans all over the world.

Jongo is not only the most flexible wireless music system available at an amazing value, it’s also the only system that allows Bluetooth streaming to multiple speakers.

Jongo Wireless Music System

Now featuring Bluetooth Caskeid

Hailed as an impressive wireless music system that can be tailored to suit any home or budget, it's easy to see why Jongo has already won so many fans. And now, thanks to our unique Bluetooth Caskeid technology, it's even better.

Developed with our parent company, Imagination Technologies, Bluetooth Caskeid allows music to be streamed, perfectly synchronised, to multiple speakers, from any app, using any device.

any music | any room | anywhere

THE JONGO FAMILY

- Stream music from a smartphone to an existing hifi

‘ However good a product is, we’ll always ask ourselves, can we make this even better?’

Connected Radios

Nothing beats an internet radio when it comes to choice of listening. The ability to tune-in to thousands of international stations, plus on-demand programmes and podcasts and, of course, the usual range of broadcast digital and FM stations inspired us to create some very special products

The Evoke F4 with Bluetooth is a stylish evolution of our iconic Evoke range. The Sensia 200D Connect features a large colour touch screen, making it easy to browse the web or keep in touch with social media. The compact, versatile, portable One Flow is perfect for listening on the move or in the garden.

All internet radios can play music stored on a smartphone or tablet, wirelessly, and can also instantly create a state-of-the-art multiroom system by pairing with any wireless Jongo speaker.

There’s a great range for iPod, iPhone and iPad users too. We’ve created specific docks and Airplay products designed to make the most of Apple products: the i-20 and Contour 200i Air and i1 Air.

INTERNET STREAMING RADIOS

DELIVERING THE SOUND OF THE WORLD

Evoke F4 with Bluetooth

Portable Internet, Digital and FM Radio

- Access to thousands of radio stations from around the world

‘ Hand-tuning means every Pure product’s in a sound league of its own.’

Digital Radios

Responsible for a plethora of industry firsts, Pure pioneered the DAB category and remain the industry standard-setters. And, with so many models to choose from, there really is a Pure digital radio for everyone.

- POP Family: hot off the launch pad, cool, cute and destined for stardom.
- One Family: classic portables for work and play.
- Evoke D2 range: compact but powerful with incredible sound. Available in a range of colours and designer versions.
- Evoke D4 range: multi-award-winning, elegant and iconic. Available in a range of colours.
- Personal radios: born travellers, great for the gym, commuting or holidays.
- Bedside radios: innovative models deliver the best nights’ sleep and wake-up calls.
- Highway in-car range: bringing best-in-class digital radio to the car.

Naturally, as we were the first manufacturer to receive the Digial Radio tick mark, all our products are ready for the digital switchover.

digitalradio
